

# DOGGIELOUNGE RECYCLED VELVET

**Cool, well-bred dogs like to chill on velvet. And Fatboy completely appreciates that. Which is why Fatboy makes Doggielounge Recycled Velvet, especially for them.**

## Here's the story

Your dog basket relegated to a remote corner? Not this one! When it comes to classic comfort, Doggielounge Recycled Velvet is the ultimate upgrade - and a striking addition to your interior too. It is nice and soft, super strong, and water- and dirt-resistant to boot. Banish "eau de K-nine" forever. Just wipe your Doggielounge Recycled Velvet with a damp cloth now and again to keep it très chique.

## For big dogs – and dogs that might think they are

Doggielounge Recycled Velvet Small has the perfect size for any pooch that would fit in a shopping bag. It's ideal for relaxing together: you flat out on your couch and your dog gracing its own throne. Doggielounge Recycled Velvet Large, meanwhile, looks so invitingly comfortable you'll be tempted to curl up on it yourself. This over-sized Doggielounge can accommodate any big dog, or one that has misplaced visions of grandeur.

## 100% recycled polyester

The cover of Doggielounge Recycled Velvet is fabricated from 100% recycled polyester. This soft-to-the-feel material reflects light, giving it a subtle sheen. Want to personalize it with your pooch's name, just like a traditional kennel? Here too, Fatboy has you covered. Just share your pet's name and Fatboy will print it on a nametag, which can be placed where you see the Velcro-detachable bone.
