

EDISON THE PETIT HOODIE

The fully fashioned knitted sleeve for Edison the Petit.

Here's the story

With a wide variety in Cooper Cappies to personalize Fatboy's little table lamp, one thing was still missing. A gap that is now filled with Edison the Petit Hoodie, a one of a kind knitted hat.

Simply calling Hoodie a knitted hat wouldn't be fair. This soft sleeve is especially developed for Edison the Petit. A sleeve with a knitted pattern that fits perfectly, while joyfully playing with the light. That's where the unique details come in. A closer look shows how the sleeve gently wraps around the hood of the lamp. Once lit, you'll instantly notice how subtle the holes of the mesh seem to close as they orbit the lamp.

Hoodie gives Edison the Petit a soft, veiled touch. A pleasure for the eye in both looks and light intensity, which adds a bit of mystique in a playful way.

Nice to know!
