

# ORIGINAL OUTDOOR

## Instant relaxation

If you're really serious about relaxing, in your garden, your balcony, the park, wherever, then there's really just one serious option: Original Outdoor. The one and only outside beanbag. Original Outdoor is 6.65 kilos of instant relaxation. Forget sitting up straight, or with one leg neatly crossed over the other. This outdoor beanbag has just the one setting: Relax. With a capital R. Sunglasses and a cool drink warmly recommended.

## The soft, outdoor powerhouse

Original Outdoor is made from strong Olefin fabric, which is water- and dirt-repellent. The odd shower poses no problems for this outdoor beanbag. And don't worry about leaving it in the sun either. Its color will stay as vibrant as the day you bought it. Spilt your glass of red wine over your Original Outdoor? Or perhaps the kids have lined it with ice cream? Again, no problem. Wipe it with a damp cloth or give it a once-over with the garden hose and it'll be as good as new.

## ROCK 'N ROLL: a rocking-chair beanbag for outside

Always wanted to rock on your Fatboy beanbag? That's why Fatboy made the Rock 'n Roll, an oversized metal rocking frame that's the perfect partner for your Outdoor Original. Place your beanbag on it and what have you got? The most relaxed rocking chair imaginable, that's what.
