

CARPRETTY GRAND POP UP

The rug that brings inside ambience outside.

Here's the story

What really sets off your living room? Chances are you'll say the rug. Which is why Fatboy developed a rug with inside ambience that's completely up to the challenge posed by the outdoor conditions in your garden or on your patio.

And Fatboy did so in a big way too. Because Carpretty Grand Pop Up is a generous 200 by 290 centimeters. It's the perfect way to complement your Toni garden set, or Paletti lounger, or.... And as the summer recedes, its cool pattern will make you so glad you can also use it indoors. And why not? Carpretty Grand Pop Up works everywhere and anywhere, whatever the season.

A magic carpet

Thanks to its composite weave, this anti-static rug is very easy on the eye and nice and soft on the feet too. What's more, it's super-strong and water- and weather-resistant. Spilt something over it? No problem. A quick wipe with a damp cloth or a once-over with a pressure hose and your rug will again be as good as new. And because Carpretty Grand Pop Up is also UV-resistant, it will retain its color beautifully for many years to come.
