

SUNSHADY

How do you bring that Riviera feeling to your own garden?
With Sunshady! This parasol brings you shade – in style.

Here's the story

When you unfold Sunshady, you unfold the ultimate holiday mood. The bold retro pattern makes you feel like you're poolside at a posh hotel, with Sophia Loren on your left and James Bond (the Sean Connery version) on your right. That feeling is enhanced by the classic flaps with the cream-colored trim. The red Fatboy flag on top makes it complete.

Flexible style

Sunshady is all about flexible style. Thanks to a cleverly hidden mechanism, you can tilt it to two different sides. That means you're always in the shade. It's easy to open and close Sunshady with its smooth pulley system. And of course Sunshady fits perfectly into the parasol hole in Fatboy's Toni garden tables and Fatboy's heavy parasol base. Does that print stay just as beautiful? Yes, of course it does. Thanks to the UV-resistant fabric, Sunshady's colors remain crystal clear.

Nice to know!
