

HUMPTY & DUMPTY

Generously round inflatable coffee tables.

Here's the story

Inflatable donuts as coffee tables? Fatboy always knows how to turn your interior into a great place for a party. These cozy fatties, Humpty and Dumpty, are generous round coffee tables. Bold design that is so strong and sturdy that these tables will be rocking your living room for years to come. You've never had such a stylish place to park your drinks.

Light and airy

Humpty and Dumpty are delivered in a convenient flat-pack box. You bring them to life with a pump. They're sturdy and won't deflate, unless you want them to. When you're ready to store them, there's a handy pull tag at the bottom that makes letting the air out a breeze. Humpty and Dumpty come in a variety of different colors and, because they're so lightweight, they're easy to reposition.

Strong and easy to use

Unlike the nursery rhyme, Humpty and Dumpty can take a beating. The powder-coated steel top is scratch-resistant and the robust inflatable donut is made of durable eco-friendly PVC. The heavy-duty woven fabric is not only cool and casual, but also super strong. Spilled drink? No problem. Humpty and Dumpty's covers can easily be washed in your washing machine.
