

# CHAP-O

## Set the mood

Meet Chap-O. Chap-O is a compact pendant lamp with an iconic design, which is a subtle nod to the classic large pendant lamp but in a refined size. Chap-O provides ambiance everywhere: in your living or dining room, in the hallway, in the bedroom next to your bed, or outdoors in the garden. And the best part? Thanks to its wireless design, you'll never have to deal with cables against the wall or outlets that are just out of reach for those dark corners. Hang Chap-O directly by its cord or effortlessly attach the included wall-mount to your wall or fence. With Chap-O, the possibilities are endless.

## Hats off to Chap-O

Chap-O is brimming with clever details. The LED lamp is a detachable element that attaches to the bottom of Chap-O's hat with a strong magnet. Pressing the button on the lamp turns Chap-O on or off, and holding the button allows you to adjust the light level. Also pretty handy: when you turn it on, Chap-O remembers the last chosen setting. When it's dimmed to the max, Chap-O's battery provides up to 100 hours of cozy lighting. Is it running low? Simply remove the lamp from under the hat to quickly recharge it – within two hours – with the magnetic USB cable provided.

## Anything goes

Chap-O is available in various colors and comes standard with a gray cord. The lamp, the hat, and the included wall-mount always come in the same matching color. Let your Chap-O hang around in the hallway, kitchen, or bedroom. You can also allow its warm white LED light to shine in your garden on a tree or your umbrella, on your balcony or at a campsite. Inside or outside, anything goes. Thanks to the hat made of rust-resistant steel, Chap-O can handle a summer shower with ease.
