fatboy®

## Terry collection

Whether you're looking for a nice lounge spot, a versatile pouf or cozy cushions for your sofa, with the Terry collection you can be sure you're in the right place. The Original Slim Terry beanbag, Point Terry pouffe and the Square Pillow Terry cushion are – as the names reveal – made from Fatboy's fabric hero Terry. This is a super-soft terry cloth that allows you to bring the comfort of a luxurious bathrobe to every room in your home.

## All good things come in threes

The Original Slim Terry beanbag is just as iconic as the Original beanbag, but a bit smaller. This soft chill spot fits perfectly in every corner of your home. Are you missing an extra chair when you invite your friends over for cocktails? With the Point Terry it's an extra point for everyone. Do you feel like kicking back and relaxing? Then use it as a footstool or side table for your snacks. The Square Pillow Terry cushion is the icing on your interior's cake. Complete your sofa with this square cushion. Or match it with your beanbag and pouffe for a complete soft look.

## First stripe

Fatboy's first striped collection for indoor use – the Terry collection – has more going for it than just a stripe pattern. The subtle contours of these lines give the fabric an extra luxurious look. The fine, high-quality terrycloth ensures an extra soft and relaxing way to enjoy the Original Slim, Point and Square Pillow. They're all designed to last a long time and can take a beating. The Terry fabric is not only soft, but also practical. It's resistant to pilling thanks to its fine surface. Another plus: you can easily clean the fabric with a damp cloth, or simply hand wash the covers.
