

# SUMO SOFA VELVET

## Your sofa, your rules

The Sumo Sofa Velvet is a real Fatboy sofa. This indoor sofa – inspired by a collection of cushions – is not only spacious and iconic, but also circular and modular. As a result, it offers endless possibilities. Easily adjust its setup to your ideal chill spot, no matter how large (or small) you live. Whether you want a cozy loveseat, a spacious three-seater or a gigantic lounge area for the whole family, you can go in any direction with the Sumo Sofa Velvet. Create your perfect sofa by combining different elements.

## Recycled, super soft velvet

The Sumo Sofa Velvet is covered in a super soft recycled velvet fabric, and it has been developed with an extra Dacron fiber lining to provide maximum comfort and a puffy look. The velvet fabric reflects the light, giving it an attractive sheen. It's very strong and therefore the Sumo Sofa Velvet is suitable for intensive residential use. The fabric doesn't pill or shed and is easy to clean with a damp cloth. This indoor sofa feels soft, but has a firm seat. Add a Puff Pillow or Square Pillow in exactly the same fabric and color to make your lounge corner even cozier and more comfortable.

## Circular design

You can enjoy the Sumo Sofa Velvet for years to come. Are you moving or are you just ready for a new setup? Thanks to the flexible modules, you can easily adjust your Sumo Sofa Velvet set. Its design has been thought through in every detail and is of high quality. If something needs to be replaced after years of use, each part can be replaced separately. There is absolutely nothing glued together in the inner frame. Ready for a new color? Give your Sumo Sofa a new outfit with slip covers. Your Sumo Sofa is made to last a lifetime. But, if you ever want to part with it, you can completely disassemble it and recycle all of the parts.
