

# THE BONBARON OUTDOOR

## The BonBaron Outdoor brings super-comfortable lounging to the outdoors

The BonBaron Outdoor brings Fatboy's design with a smile to your outdoor space. This striking and inviting lounge chair is just as comfortable as The BonBaron indoor chair but fully tailored for outdoor living. It combines durable quality with an ultra comfortable seating experience, thanks to its soft foam filling. With its robust look and friendly shape, it's guaranteed to become iconic centerpiece of your garden, patio, or balcony.

## Choose your chill mode

The BonBaron Outdoor effortlessly adapts to your preferred chill mode. Adjust the backrest easily by turning the oversized buttons on the back. Want to relax in another spot? Thanks to the handle, subtly integrated between the buttons, you can move the chair effortlessly to the sun or shade. The bottom is equipped with anti-slip material, ensuring the chair stays firmly in place — even on slippery or uneven surfaces. And as if that's not enough, the cover is removable and machine washable, so your favorite lounge chair always looks fresh and as good as new.

## Weatherproof relaxation chair

Its relaxed look might not give it away, but the BonBaron Outdoor is entirely designed for outdoor use. Thanks to the durable water- and dirt-repellent olefin fabric, waterproof zipper, and breathable coating, this chair is perfect for any outdoor space. A hidden mesh opening under the oversized buttons ensures air circulation, keeping the chair breathable even after prolonged use. A rain shower? No problem. Simply wipe it dry, and you're ready to lounge again. Is it really raining nonstop? Keep it dry under a roof, on a dry surface. That way, your BonBaron Outdoor stays in top shape, ready for your next chill session. The BonBaron Outdoor is, just as you'd expect from Fatboy, the perfect mix of fun and functionality.
